SOLUTION HIGHLIGHTS

The Savant WMS was designed to help your organization solve its unique business problems by providing a robust suite of warehouse automation solutions. At Savant Software, we believe that the safest and best software system solution for companies today is to embrace packages using industry-standard tools while having an open chitecture and built-in flexibility. To this end, Savant was developed using the leading technology, database, reporting, labeling and hardware platforms available.

ERROR REDUCTION

The Savant WMS dramatically reduces costly errors through extensive audit trails, system guidance and intervention, product verification, and the elimination of paperwork.

REDUCE OPERATIONAL COSTS AND GAIN RAPID ROI

Warehouse automation reduces costs and many Savant customers recognize 100% ROI within the first twelve months.

savant SOFTWARE

"THE SAVANT WMS FIRST HIT THE MARKET IN THE MID 1990S. WITH OVER 20 YEARS OF DEPLOYMENTS, WE HAVE THE EXPERIENCE TO HELP STREAMLINE YOUR WARHOUSE OPERATIONS."

CHRIS JACKSON, PRESIDENT SAVANT SOFTWARE

Provides advanced warehouse automation features for the mid-sized and enterprise manufacturing and distribution company.

Savant WMS decreases manual operations, eliminates paperwork and reduces operational costs by increasing the accuracy and speed of warehouse functions like receiving, putaway, inventory counts, inventory moves, picking and shipping. By improving operational efficiencies, Savant WMS enables your organization to gain a real competitive advantage.

Savant WMS integrates into many of today's leading ERP solutions including Acumatica, Dynamics GP, Dynamics NAV, SAP B1 and many others. This tightly integrated, loosely coupled strategy creates confidence that the data in each system is accurate while also insuring that if your ERP system goes down, the warehouse remains operational.

IMPROVED INVENTORY VISIBILITY AND ACCURACY

The Savant WMS can improve inventory accuracy up to 99% and reduce inventory carrying costs by 35%.

IMPROVED WAREHOUSE PRODUCTIVITY

Key to reducing warehouse costs is to increase both productivity and inventory velocity.

FEATURES

- Features Found in Savant ADC
- Capture of Weights (Catchweights)
- Unlimited Number of Storage Levels per Product
- ABC Classification
- Automatic Replenishments Based on Order Demand and/or Min/Max Quantity
- Wave Picking
- Verification of Code Dates at Picking
- Capture Code Date Information at Receipt for Use in Product Rotation
- Advanced Directed Put-Away Methodologies
- Code Date Tracking
- Automatic Replenishment of Picking Locations
- Multiple Inventory Allocation Rules
- Verification of Catchweights at Picking
- Recall Reporting by Product

AMS Automotive, a manufacturer of automotive parts, needed a warehouse automation solution to improve "inventory accuracy and control that will result in a reduction of overall inventory investment" Mr. Sweeney concludes, "AMS would strongly recommend Savant".

Jay Sweeney
Director of Operations
AMS Automotive

"Thank you Team Savant for the efforts in getting this project off the ground. We came in with a plan and a great product, and our warehouse operations and people are seeing the benefits already."

PREMIER SOLUTION PARTNER

Zebra Technologies' Warehouse Solutions
2017's Most Popular Mobile Computing Options

TC8000 Touch Mobile Computer and Scanner

More Features and 14% More Productivity

Zebra's TC8000 Touch Mobile Computer is the groundbreaking new warehouse mobile computer designed to deliver revolutionary productivity increases. On average, it saves 14% per worker versus tra-ditional mobile computers, adding an extra hour of productivity per warehouse worker per day.

• Versatile, Multi-Modal, and
  Super-Rugged Design
• Quick and Effective
  Scanning Anywhere
• Wearable or Mounted Scanning
• Ergonomic Body for Reduced
  Motion and Effort
• Revolutionary Larger Screen
• Faster and More Accurate
  Virtual Keyboard
• Hot Swap Battery for
  Maximum Uptime
• Voice-directed Picking with
  TekSpeech Pro
• Push-to-Talk Communications
  with Workforce Connect

Total Wearable Solutions:
• **WT6000 Computer**
• **RS6000 Bluetooth Ring Scanner**
• **HS3100 Rugged Headset**

Zebra's Total Wearable Solutions have everything you need to create a powerful hands-free picking solution that allows workers to pick more orders, more accurately, every day.

These solutions put the wearable in industrial wearable computing by setting a new standard for ease of use, comfort and value. Start with the WT6000 Android rugged wearable computer, add the hands-free ring scanner and headset of choice: the RS6000 1D/2D Bluetooth or RS4000 1D corded ring scanners, and the HS3100 Bluetooth or HS2100 corded headsets. A workforce solution for warehousing that's an extention of your every movement.

• Lightweight and Compact
• Simple and Easy to Use
• Large Touch-Screen Display
• Programmable Soft Keys
• Productivity Increases and
  Error Reductions
• Rugged and Ready for
  Any Environment

Zebra TC51

Designed for the new business world, the Zebra TC51 mobile computer looks and feels like the most popular pocketable consumer-style smartphones to meet your workers' expectations, along with the enterprise-class scanner, features, power, security and manageability your business requires.

No more compromising device design for enterprise functionality — or enterprise functionality for device design.

• Maximum Display Size per Enterprise Devices Today
• Rugged and Ready for Business with Gorilla Glass
• PowerPrecision+ Battery for Best-In-Class Power Source
• Automatically Capture and Process Entire Documents
• Ultra-High Resolution Photos
• Active Edge Touch Zone; One-Touch Access of Most Used Worker Features
• Crystal Clear Voice Calling (Service Provider Required)
• Robust Wi-Fi/4G LTE Inside and Outside the Four Walls

LAND AND EXPAND IS A CONCEPT WHERE YOU PURCHASE OR "LAND" ON THE SYSTEM THAT FITS YOUR NEEDS AND BUDGET TODAY, THEN EXPAND OR GROW INTO THE SYSTEM THAT YOU NEED FOR TOMORROW. SAVANT PROVIDES A ROBUST UPGRADE PATH FROM ITS ADC ENTRY LEVEL WAREHOUSE AUTOMATION SOLUTION TO A FEATURE RICH WMS. UNLIKE OUR COMPETITORS WHICH FORCE YOU TO RIP OUT ONE SYSTEM AND REPLACE IT WITH A COMPLETELY DIFFERENT ONE, SAVANT'S UPGRADE PATH ONLY REQUIRES ENTERING A NEW LICENSE KEY WHICH EXPANDS THE SYSTEM'S CAPABILITIES. THIS UNIQUE STRATEGY GREATLY REDUCES THE COST OF UPGRADES AND TRAINING, AND EXTENDS THE LIFE CYCLE OF THE SOLUTION.
